

Lee S. Cohen, M.D.

Lee S. Cohen, M.D. is Associate Professor of psychiatry at Harvard Medical School and Director of the Perinatal and Reproductive Psychiatry Clinical Research Program at Massachusetts General Hospital, both in Boston.

Dr. Cohen earned his B.S. at the University of Michigan in Ann Arbor and his M.D. at the Albany Medical College in Albany, NY. He completed his internship in medicine at St. Elizabeth's Hospital in Brighton, MA, and his residency in psychiatry at Massachusetts General Hospital in Boston. His fellowship in psychopharmacology was done in the Clinical Psychopharmacology Unit at the Massachusetts General Hospital, Harvard Medical School.

Among Dr. Cohen's research interests are treatment of premenstrual dysphoric disorder, the longitudinal course and treatment of psychiatric illness during pregnancy and the postpartum period, the impact of maternal psychiatric illness on child development, and management of peri and postmenopausal depression. Dr. Cohen has authored and co-authored more than 175 articles, abstracts, and book chapters concerning these and related topics. His articles have been published in the Journal of the American Medical Association, American Journal of Psychiatry, and the Archives of General Psychiatry. He is a member of the American Psychiatric Association, the Massachusetts Psychiatric Association, the Society of Biological Psychiatry, and the American Society of Clinical Psychopharmacology. Dr. Cohen is the recipient of numerous honors and awards, including the Outstanding Psychiatrist Award from the Massachusetts Medical Society.
